Get to know your union

Påfarten is a one-day training course where you will learn how the Byggnads and other unions were started in the late 1800s.

You get an insight into how the Byggnads works in the labor market today. You will also learn about laws and other things that affect your everyday life at work.

The idea of Byggnads is to gather construction workers and together organize ourselves to be able to become stronger.

Byggnads will pay your salary in form of compensation för the day

During the day with Påfarten you will:

- ▶ Get to know other construction workers from different companies.
- ▶ Learn what your membership fee goes to and what you get for your money.
- ▶ Discuss rights, obligations and benefits.
- ▶ The goal is for you to become a **STRONG, PROUD** and **SAFE** member of Byggnads.
